

Foundation Visionaries

Celebrating the past...funding the future!!!

Twenty years ago, a group of visionary, forward-thinking audiologists founded the American Academy of Audiology; we're honoring them and their vision in 2008. The Academy's founders believed in a future with continued advances in the science and practice of audiology, and one where the highest quality hearing health care is available for all. A new generation of visionaries, **Foundation Visionaries**, want to ensure this vision is supported in 2008...and beyond!

Do you receive professional and personal satisfaction from your career in the hearing sciences? Do you support scientific and technological advances in audiology? Would you like to see that AuD students and young researchers are provided with adequate financial resources? Do you want to ensure that individuals with hearing and balance disorders receive the most advanced and progressive treatment? Would you like to ensure that Academy initiatives like the "Turn it to the Left" campaign raise public awareness about healthy hearing? Will you commit to "funding the future" and become a **Foundation Visionary**?

Yes! I want to celebrate the vision and commemorate the 20th Anniversary by becoming a Foundation Visionary in 2008! I commit to "funding the future" with my....
