

SAA Special Olympics Healthy Hearing Chapter Participation Grants

Application Information

In 2010, the Student Academy of Audiology (SAA) officially announced its relationship with the Special Olympics Healthy Hearing (SOHH) program as a national service project. The SAA is encouraging university chapter participation in SOHH programs throughout the country to support the goals of 1) increasing the number of student volunteers involved with hearing screenings, and 2) improving the audiologic follow-up of athletes after the games.

The American Academy of Audiology Foundation (AAAF) SAA Chapter Participation Grants program provides funding that enables students from SAA Chapters to serve as volunteers at SOHH events at the local, regional, and state levels. These grants supplement chapter fundraising activities and partially cover costs of travel and supplies.

Chapter applications will be accepted between October 1, 2011 and February 1, 2012 for support of Chapter SOHH events between April 1, 2012 and March 31, 2013. Award notification will be made by March 15, 2012.

Each chapter application packet must include:

1. Complete application form (attached)
2. Completed SOHH budget form (attached)
3. Description (including date and location) of fundraising events planned by chapter and anticipated revenue from chapter events

The completed application packet for support must be sent to Tara Conte at tconte@audiology.org by February 1, 2012.

For additional information, call the AAAF office at 703.226.1049.
